- books collection api
inter techub
novamember 2024 - present
- digital content store app
ASTU LIBRARY
june 2024 - september 2024

Passionate Backend Developer skilled in building secure and scalable APIs with Node.js, Express.js, and MongoDB. Adept at collaborating with frontend teams, optimizing database queries, and delivering high-quality software solutions.

Education

ASTU UNIVERSITY
B.Sc. in Software
Engineering
2020 - PRESENT

Skills

- Backend: Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication
- Tools: Git, Postman, Swagger, Docker
- Soft Skills: Problem-Solving, Teamwork, Communication

gebre wagnew

back-end developer

To whom it may concern,

I am a passionate Backend Developer with hands-on experience in building scalable and secure backend systems. My expertise lies in creating robust RESTful APIs using Node.js and Express.js, coupled with database management in MongoDB.

I have successfully developed and deployed backend services for applications, including authentication with JWT, role-based access control, and optimized database queries for performance. I thrive in collaborative environments, ensuring seamless integration between backend and frontend teams.

My ability to design and implement efficient data models, handle complex API integrations, and debug backend systems sets me apart. I am adept at using tools like Postman and Swagger for API testing and documentation, ensuring high-quality deliverables.

With a problem-solving mindset, I consistently deliver solutions that meet user requirements and adhere to best practices. I am committed to continuous learning and staying updated with the latest backend technologies to deliver innovative and scalable solutions.
